DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on February 25, 2004 is being considered by the examiner.

Drawings

3. The drawings are objected to under 37 CFR 1.83(a) because they fail to show at least Item 15 as described in the specification. Further, at least Items 10, 12, and 13 are labeled using vertically stacked numerals. For clarity, please renumber the illustrated elements using horizontally arranged numbers. Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary

Art Unit: 2881

to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

4. Claims 1-28 are allowed.
5. The following is an examiner's statement of reasons for allowance:
6. The examiner further makes of record the following relevant documents considered in examination of the instant application:
 7. USPN 6,825,478
 8. USPN 6,822,230
 9. USPN 6,071,610
 10. USPN 5,841,136
 11. USPN 5,498,545
 12. Donegan et al., "Controlling matrix suppression for matrix-assisted laser desorption/ionization analysis of small molecules", Rapid Communications in Mass Spectrometry, 2004; 18: 1885-1888.
13. The prior art above including USPN 6,414,306 fail to teach the cleaning plate recited in claim 1 or the method of use as set forth in claim 14. USPN 6,414,306 is particularly distinguished because the fluid application means, illustrated in Fig. 3 of the

reference, is positioned to distribute a matrix solution and does not recite the particulars of the cleaning plate of claim 1. Claim 14 similarly requires application of a cleaning plate as well. While the method calls for the application of a fluid out of a spray nozzle of a cleaning plate, the system and method of USPN 6,414,306 could not be considered a cleaning device because it is directed to application of a matrix solution and thereby applies foreign substances to the sample support instead of removing unwanted substances. Claims 2-13 and 15-28 are allowable by virtue of their dependency.

14. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

15. This application is in condition for allowance except for the following formal matters:

The drawings must be corrected as pointed out above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
